<u>Common Name</u>	<u>Latin Name</u>	<u>Description</u>	<u>Format</u>	<u>Size</u>	<u>Price</u>
CONIFERS					
**White Cedar	Thuja Occidentalis	Native, Carolinian. Ideal for hedging, screening and windbreaks. May be planted 1-3 ft. apart on sandy loam to clay soils. Will tolerate heavy pruning to keep compact shape	b.r.	1 yr.sdlg.	\$0.50
			b.r.	2 yr. sdlg.	\$1.00
			1 gal.	15 cm.	\$4.00
Black Cedar	Thuja Occidentalis Nigra	Thicker, darker than the white cedar, holding its color better in the winter. Less susceptible to mites.	r.cutting	10-15 cm	\$1.00
Eastern Red Cedar	Juniperus Virginiana	Native, Carolinian. Green Pyramidal shape, growing in a wide variety of soils. Produces numerous blue berries. Excellent for habitat, screens, windbreaks and food source for animals.	b.r.	2 yr.sdlg.	\$1.50
			potted	3 yr. sdlg.	\$4.00
			1 gal.	3 yr. sdlg.	\$5.00
West Coast Columnar Cedar	Thuja Plicata Virescens	A broad, dense pyramidal shape with dark green foliage. Will take on a rust or mahogany color in winter. 40- 60' height. Great as a specimen or screen.	b.r.	2 yr.sdlg.	\$2.00
Rosenthal Cedar	Thuja Rosenthal	Very rare. Has dark green, compact growth. Ideal for hedging and screens. Very hardy. Grows in a wide variety of soils.	b.r.	2yr sdlg.	\$1.50
Rodmeri Cedar	Thuja Rodmeri	Very rare A hardy cedar with a unique pyramidal shape and foliage similar to a hinoki cypress.	b.r.	2 yr.sdlg.	\$1.50
Japanese Cedar	Cryptomeria Japonica	Very rare. One of the only true cedars which can be grown in Canada (to zone 6) Has a distinct bronze color in the winter. Foliage is very soft and wispy.	b.r.	2 yr. sdlg.	\$2.00
Oriental Goldbush Arborvitae	Platycladus Orientalis	Very rare in Canada. Formerly Thuja Orientalis. A very compact large shrub or small tree, with scale-like needles which have a bright gold color. Cost will be more for goldier specimens.	b.r.	2 yr. sdlg.	\$2.00
Lawsons False Cypress	Chaemycyparis Lawsoni	Very rare in Canada. One of the few cypresses available here. Beautiful bluish-green foliage. Ideal for hedging, screens. hardy to zone 6.	b.r.	1 yr.sdlg.	\$2.00
Hinoki Cypress	Chaemycyparis Hinoki	Very rare. A conical-shaped conifer with graceful, flattened, fern-like branchlets. Dark-green foliage. Ideal as a specimen or can be used in Japanese garden. Dwarf	b.r.	1 yr.sdlg.	\$3.00
Austrian Pine	Pinus Nigra	A very hardy and adaptable species with long, stiff dark green needles growing on wide, stout branches. Good screen or windbreak tree. Very tolerant of salt, pollution, and city conditions. Can be grown on heavy clay to light sandy soils.	potted	1 yr.sdlg.	\$0.75
			potted	2 yr.sdlg.	\$1.00
White Pine	Pinus Strobus	Native, Carolinian, and Ontario's provincial tree. Has long, soft light-green needles. Fast-growing and tolerates moist to quite dry soils.	plug	2 yr.sdlg.	\$1.00
Red Pine	Pinus Resinosa	Native, fast-growing species with long needles in large clusters and mottled reddish bark over time. Prefers a light sandy soil in a sunny, dry location.	plug	2 yr.sdlg.	\$1.00
Ponderosa Pine	Pinus Ponderosa	Fast-growing Pine with long, stiff needles. Very tolerant of dry conditions. Excellent for windbreaks and Christmas trees. Grows on most soil types.	plug	2 yr.sdlg.	\$1.00
Scotch Pine	Pinus Sylvestra	Low-growing, mounded pine. Grows in a variety of soils, but prefers a deep, moist loam in the sun. Can be pruned into a very tight, dwarf landscape item.	b.r.	1 yr.sdlg.	\$0.75
			plug	2 yr.sdlg.	\$1.00
			potted	3 yr.sdlg.	\$2.50
			1 gal.	3 yr.sdlg.	\$4.00
Tanyosho Pine	Pinus Densiflora	Very rare. A dense wide tree of small stature (up to 20'). Relatively fast-growing in early stages, but then slows down. Ideal for oriental gardens and small spaces.	b.r.	1 yr.sdlg.	\$2.00
Virginia Pine	Umbra Cullifera Pinus Virginiana	Very rare in Canada. A near threatened tree. Native to New York state and Appalachia. Will grow in a wide range of soils-clay, loam and poorer soils. Grows up to 15m. Tall.	b.r.	2 yr.sdlg.	\$2.00

Common Name	Latin Name	Description	Format	Size	Price
Concolor Fir	Abies Concolor	A soft, silver foliage with a silver trunk. Excellent landscape or Christmas tree. Needs a well drained soil. Also called white or silver fir.	plug	2 yr.sdlg.	\$1.25
**Balsam Fir	Abies Balsamea	Bright green needles, shade-tolerant Christmas tree with great needle retention and fragrance. Will grow on some more acidic soils.	plug	2 yr.sdlg.	\$1.25
^Fraser Fir	Abies Fraseri	A premium, slower-growing Christmas tree, Considered to be the best of all. Also makes an excellent specimen plant for the yard. Dark-green foliage with a silver underside.	b.r. plug	3 yr.sdlg. 2 yr. sdlg.	\$2.00 \$1.50
**Korean Fir	Abies Koreana	A premium Christmas and specimen tree, which likes to have a fertile, loamy soil that isn't too dry. Beautiful shape and silver-light-green foliage. It is a short tree with unique, upright branches.	b.r. plug	3 yr.sdlg. 2 yr. sdlg.	\$2.00 \$1.25
Eastern Hemlock	Tsuga Canadensis	Native, Carolinian. The only hemlock in Eastern Canada. Fine,weeping needles. Will tolerate some shade and pruning. An excellent lanscape tree which can be kept small.	potted potted 1 gal.	2yr sdlg. 3 yr.sdlg. 3 yr.sdlg.	\$1.50 \$2.00 \$4.00
Norway Spruce	Picea Abies	A very fast-growing tree with dark-green needles. Excellent for windbreaks. Pyramidal growth habit with weeping branches in older age. Plant in moderately-drained to clay soils.	plug	2 yr.sdlg.	\$1.00
Colorado Spruce	Picea Pungens Glauca	A beautiful, relatively fast-growing tree needing full sun. Great for landscaping, windbreaks and screens. Needs well-drained clay-loam to sandy loam. Colour ranges from greenish-blue to bright blue.	plug	3 yr.sdlg.	\$2.00
White Spruce	Picea Glauca	Native. A very hardy tree growing in every province. Light-coloured, short-needed tree with a tight, upright growth habit, needing little pruning. Excellent for screens, windbreaks and Christmas trees.	plug plug	2 yr.sdlg. 2 yr.sdlg.	\$1.50 \$1.00
Likiang Spruce	Picea Likiangensis	Very rare. Native to southwest China. Broad conical shape and dark-green to blue-green color. A medium sized tree. Drought tolerant. Has a shape similar to the Norway Spruce.	b.r.	2 yr. sdlg.	\$2.00
Koyami Spruce	Picea Koyamai	Very rare. Only 250 mature trees in the wild. Grows in remote elevations up to 25 m tall. Similar in growth to the Norway spruce, with slightly pendulous branches. Can be used as a screen, windbreak or specimen.	b.r.	2 yr. sdlg.	\$2.00
Serbian Spruce	Picea Omorika	Considered one of the best spruce for landscape use. Has a narrow growth habit needing little pruning. Excellent for screens, windbreaks and Christmas trees.	plug plug	3 yr.sdlg. 2 yr.sdlg.	\$1.75 \$1.00
Tamarack	Larix Docidua	Native. Short needles that start out light green and then turn a golden color in the fall, then drops its needles. A fast grower which will take wet conditions.	plug potted 1 gal.	2 yr. sdlg. 3 yr. sdlg.	\$1.00 \$2.00 \$5.00
European Larch	Larix Decidua	Deciduous conifer that is more ornamental than the tamarack. A fast grower which does well in wet conditions.	plug potted 1 gal.	2 yr. sdlg. 3 yr sdlg.	\$1.00 \$2.00 \$5.00
Japanese Larch	Larix Kaempferi	Rare. A medium-sized conifer. Native to the lower elevations of Japanese mountains.Will take drier soils than other larches and has more pendulous branches. Beautiful gold foliage in fall time.A fast grower.	b.r.	1 yr. sdlg.	\$1.00
Sawara Cypress	Chamaecyparis Pisifera	A very rare cypress which is hardy for this area. Can be kept tight and pruned or can be allowed to form a small tree. Has reddish bark with exotic-looking foliage.	3" potted	2 yr. sdlg.	\$1.50
<u>NUT TREES</u>					
Japanese Walnut	Juglans Ailantifolia	An excellent quality nut tree which is very hardy. Also called the Siebold walnut. Needs a well-drained soil and will reach 50 ft.	b.r. potted	1 yr. sdlg. 1 yr. sdlg.	\$1.75 \$2.00 \$2.00
Japanese Heartnut	Juglans Ailantifolia	An excellent nut for human consumption. Needs loam or a well-drained soil. Grows into a relatively small branched tree.	b.r. potted	1 yr.sdlg. 1 yr.sdlg.	\$2.00 \$2.00
**Butternut	Juglans Cinerea	Native, Carolinian. This species prefers moist, rich deep soils but will tolerate drier conditions. Nuts are very sweet and edible.Seed has been taken from canker-free sources.	b.r. potted	1 yr.sdlg. 1 yr.sdlg.	\$2.00 \$2.50 \$2.00
Black Walnut	Juglans Nigra	Native, Carolinian.Very hardy and a heavy producer of nuts. Prefers deep, rich soils, but will perform in lighter soils. Excellent value in its wood and as a wildlife food source.	b.r. potted	1 yr.sdlg. 1 yr.sdlg.	\$2.50 \$2.00
**English Walnut	Juglans Regia	The best walnut available in Canada. Nut meat fills the entire shell. Also called the Carpathian walnut. Needs a well-drained soil. Seed source -- a hardy 80-year old tree.	potted	1 yr. sdlg.	\$2.50
*Bitternut Hickory	Carya Cordiformus	Native, Carolinian. A fast- growing hickory. Prefers a moist or lowland area or richer soil on higher ground. An excellent food source and timber.	b.r.	1 yr. sdlg.	\$2.00
**Shagbark Hickory	Carya Ovata	Native, Carolinian. Nuts are edible and sweet. Adaptable to a wide range of soils, but prefers rich, well-drained loams. Has a distinctive shaggy bark and is excellent for number.	b.r.	1 yr.sdlg.	\$1.75
**Mockernut Hickory	Carya Tormentosa	A rare, large and hardy nut which is very tasty. One of the best hickory nuts of all. Prefers a well-drained soil. Actually native to more southern U.S.	b.r.	1 yr. sdlg.	\$2.50
**Big Shellbark Hickory	Carya Laciniosa	Native, Carolinian. Part of a northern winter-hardy population, producing large,superior quality nuts. Prefers a richer soil to grow well.	b.r.	1 yr. sdlg.	\$2.50

Common Name	Latin Name	Description	Format	Size	Price
**Red Oak	Quercus Rubra	Native, Carolinian. A fast-growing tree which thrives in rich, well-drained soil and is tolerant of city conditions. Acorns are an important food source for squirrels, turkey and deer. Bright red fall colour.	b.r.	1 yr. sdlg.	\$1.75
**English Oak	Quercus Robur	A slow-growing oak with oblong acorns. Keeps its leaves for most of the winter.	b.r.	2 yr. sdlg.	\$2.00
Pyramidal English Oak	Quercus Robur Fastigiata	A vert tight version of the english oak. Grows upright to 10-15 m tall. Ideal for tight spaces and as accent plants.	potted	1 yr. sdlg.	\$2.00
			b.r.	2 yr. sdlg.	\$2.50
Purple English Oak	Quercus Robur Purpurascens	Very rare. A unique sport of the above appearing as a rare purple leaf form.	1gal.	3 yr. sdlg.	\$5.00
			2 gal.	5 yr. sdlg.	\$12.00
White oak	Quercus Alba	Native. A large tree which tolerates most soils except wet. Great food source and valuable as timber.	potted	1yr. sdlg.	\$1.75
			b.r.	2yr. sdlg.	\$2.00
**Burr Oak	Quercus Macrocarpa	Native. A large, impressive tree. Acorns are burred on top. Excellent for wildlife and shade. Grows best on deep, rich lowlands and is moderately drought and shade tolerant. Also called mossy cup oak.	b.r.	3 yr. sdlg.	\$2.50
			b.r.	1 yr. sdlg.	\$1.75
Swamp White Oak	Quercus Bicolor	Native, Carolinian. A tree very similar to the white oak, but will take slightly moister soils. very good food source.	b.r.	2 yr. sdlg.	\$2.00
			potted	1 yr. sdlg.	\$1.75
Nuttall Oak	Quercus Nuttalli	Very rare in Canada. A unique oak native to the southern U.S., but hardy in this region. A nice tidy specimen tree of medium height.	potted	1 yr. sdlg.	\$2.50
Chinquapin Oak	Quercus Muehlenbergi	Rare, Carolinian. Similar to the Chestnut Oak. Has small pointed acorns, which are valuable as a wildlife source. Has serrated leaves similar to a chestnut.	potted	1 yr. sdlg.	\$2.50
Bear Oak	Quercus Illicifolia	A rare and small shrub-like tree reaching only 10m tall. Very small acorns. Native to the eastern U.S. where it is an endangered species in some states.	potted	1 yr. sdlg.	\$2.50
Black Oak	Quercus Velutinia	A native Carolinian. A tree similar to the red oak, but has smaller acorns. A very valuable wildlife food source.	potted	1 yr. sdlg.	\$2.50
Horse Chestnut	Aesculus Hippocastanus	A beautiful well-shaped specimen tree with large clusters of white flowers in May	potted	1 yr. sdlg.	\$2.00
			b.r.	1 yr. sdlg.	\$2.00
Bottlebush Buckeye	Aesculus Parvifolia	A large, spreading plant suitable as a specimen plant or a border. Has beautiful long clusters of white blooms in July. Green foliage turns yellow in the fall.	b.r.	1 yr. sdlg.	\$2.50
Ruby Red Chestnut	Aesculus x carnea Briota	A fairly large-growing tree which has striking large red blooms. Mildew resistant.	potted	1 yr. graft.	\$5.00
American Hazelnut	Corylus Americana	Carolinian. A small tree with small but tasty nuts which are entirely meat. Will grow in a variety of soils but prefers a well-drained soil. The richer the better.	potted	1 yr. sdlg.	\$2.00
			b.r.	1 yr. sdlg.	\$2.50
Hybrid American Chestnut		The first generation of seedlings from blight-resistant parents. After years of breeding these seedlings are the offspring of the surviving members of the efforts of the Chestnut Council of Canada.	b.r.	1 yr. sdlg.	\$2.50
*** Chinese Sweet Chestnut	Castaneo Mollissima	A hardy hybrid. The sweetest tasting of all chestnuts. Heavy producers on relatively small trees. Disease resistant. Needs a well-drained soil. High-protein, low-fat nuts. Dioecious, therefore males and females are needed. Plant away from squirrels.	b.r.	1 yr. sdlg.	\$2.50
			potted	1 yr. sdlg.	\$2.50
DECIDUOUS TREES					
Green Ash	Fraxinus Pennsylvania	A fast-growing and adaptable tree. An excellent shaped tree with high shade. Bright green coloured leaves turn yellow in the fall.	b.r.	1 yr. sdlg.	\$2.00
European Copper Beech	Fagus Sylvatica "Cuprea"	A relatively slow-growing, dense tree which requires no pruning, holding a broad, pyramidal shape. Striking dark purple foliage.	potted	1 yr. sdlg.	\$2.50
European Beech	Fagus Sylvatica	Same as above, but just having green leaves.	potted	1 yr. sdlg.	\$2.00
			potted	1 yr. sdlg.	\$2.00
White Birch	Betula Papyrifera	Excellent accent tree. Often planted in clumps. A fast-growing tree which needs full sun on sandy or clay-loam sites. Very good disease resistance.	b.r.	1 yr. sdlg.	\$2.00
			potted	2 yr. sdlg.	\$3.00
			b.r.	2 yr. sdlg.	\$3.00
			1 gal.	2 yr. sdlg.	\$4.00
			1 gal.	clump	\$6.00
Cherry Birch	Betula Lenta Linnaeus	Native, Carolinian. Extremely rare tree which needs a richer, loamier soil. Has a unique winter-green smell in its leaves.	b.r.	1 yr. sdlg.	\$3.00
Himalayan Birch	Betula Lenta Linnaeus	An Asian birch, which has strikingly beautiful white bark. Transplants well. Very hardy. An ideal specimen or in group planting. Resistance to leaf minor.	b.r.	1 yr. sdlg.	\$2.50
Sycamore Maple	Acer Platanoides	A rare maple with very large sycamore-shaped leaves. An ideal shade tree which can be very wide. Vert tolerant of urban pollution and salt.	potted	1 yr. sdlg.	\$2.50
Hedge maple	Acer	Rare tree. Not necessarily a hedge plant, but makes an ideal, tidy small specimen tree for a combined area.	potted	1 yr. sdlg.	\$2.50
**Silver Maple	Acer Saccharum	Native. A fast-growing maple, which is good for wet areas.	potted	1 yr. sdlg.	\$2.00
Japanese Maple	Acer Palmatum	A small, ornamental tree which comes in a variety of leaf shapes, colors and growth habits. Can be used in a variety of applications as well as partial shade.	b.r.	1 yr. sdlg.	\$2.00
			potted	1 yr. sdlg.	\$3.00
Red Maple	Acer Rubrum	Native, Carolinian. A large shade tree which turns a blaze of red, orange and yellow in the fall. Prefers a moist, rich soil. Excellent for maple sugar and wood.	1 gal.	2 yr. sdlg.	\$7.00
			potted	1 yr. sdlg.	\$2.00
Amur Maple	Acer Ginnala	A small tree, suitable for a border or a tree in a small area. Beautiful fall color.	b.r.	18-24'	\$2.50
			b.r.	24-30"	\$3.00

Common Name	Latin Name	Description	Format	Size	Price
Aussie Willow	Salix X Rubens Austree	A fast-growing, tight pyramidal willow with dense branching. Great for fencerows, windbreaks and screens. Tolerant of a wide range of soils. Will grow over 1 meter per year. Can be planted close together.	rooted	plug	\$1.50
			potted	24-36"	\$2.50
			1 gal.	1 yr.	\$4.00
Weeping Willow	Salix Alba	A large, fast-growing shade tree with weeping branches. Ideal for a wet or swampy area.	rooted	plug	\$1.75
Midwinters Fire Dogwood	Cornus Saguinea	A very bright reddish-orange twigs in the winter. Excellent for Christmas decorations.	potted	1 yr.sdlg.	\$1.75
**Red Osier Dogwood	Cornus Stolonifera	Native.A shrub with preference for moist areas. Has an excellent winter color of red twigs. Useful in decorations and erosion control.Thrives in moist areas.	1 gal.	2 yr.sdlg.	\$4.00
			potted	1 yr.sdlg.	\$1.50
			1 gal.	2 yr.sdlg.	\$4.00
			2 gal.	3 yr.sdlg.	\$6.00
Flowering Dogwood	Cornus Florida	Native, Carolinian. A rare tree in our area. A small tree which grows well in slightly shaded areas like the understory or woods edge. Spectacular white blooms in the spring.	potted	1 yr.sdlg.	\$2.00
Pagoda Dogwood	Cornus Alternifolia	Native Carolinian.Can be used as a small tree or a multi-stemmed specimen.Has aunique horizontal layering of branches. Berries provide wildlife food. Can be planted in shady areas.Has nice white blooms.	b.r.	1yr.sdlg.	\$2.00
Chinese Dogwood	Cornus Kousa	Also called Kousa Dogwood.A great shrub or specimen tree which will take some shade or damper soil. Nice white blooms which turn to unique fruits resembling Chinese leechy fruit.	potted	1 yr.sdlg.	\$2.50
Littleleaf Linden	Tilia Cordata	A relatively slow-growing and compact tree with an excellent pyramidal shape. Will grow in a variety of soils.	1 gal.	2 yr.sdlg.	\$5.00
Carolina Poplar	Populus Canadensis	Native, Carolinian. A fast-growing tree (up to 6 ft./yr.) Good for a quick screen or windbreak. Tolerant to a wide range of growing conditions.	rooted	plug	\$1.75
**Black Cherry Hackberry	Prunus Seritona Celtis Occidentalis	Native, Carolinian. Excellent tree for wildlife food and timber. Prefers a well-drained soil. Native, Carolinian. Elm-like appearance with ridged bark. Round sweet-tasting fruit. Prefers drier soils like sand. Excellent food for wildlife.	b.r.	1 yr.sdlg.	\$1.50
			b.r.	1 yr.sdlg.	\$2.00
Sassafras	Sassafras Albidum	Native, Carolinian.Rare, uniquely pretty fall color. Very fragrant stems and roots often used for sassafras tea.	potted	1 yr.sdlg.	\$2.75
Hoptree	Ptetea Trifoliata	Native, Carolinian. A rare, small tree with fragrant leaves and clusters of round, flat, winged seeds.	potted	1 yr.sdlg.	\$2.50
**Kentucky Coffee Tree	Gymnocladus Dioicus	Native, Carolinian.A handsome tree with deeply-furrowed bark and very large unique pods up to 15 cm long. Tolerates alkaline soils, drought and salt.	b.r.	1 yr.sdlg.	\$2.00
			b.r.	2 yr.sdlg.	\$2.50
			potted	1 yr.sdlg.	\$2.00
			1 gal.	2 yr.sdlg.	\$4.00
			2 gal.	3 yr.sdlg.	\$7.00
			b.r.	1 yr. sdlg.	\$2.00
American Sweetgum	Liquimbar Styraciflua	A stately , large tree bears glossy star-shaped leaves that will display brilliant fall colours the bark is greyish-brown and deeply-furrowed. Could be considered carolinian, but its native range extends well into the southern U.S.			
Paw Paw	Asimina Triloba	Very rare. Carolinian. A unique small tree resembling a tropical tree. Produces an excellent-tasting fruit,sometimes called "the poor-mans banana". Will grow in the understory or on the woods edge.Can be grown as far south as Florida.	potted	1 yr.sdlg.	\$3.00
Osage Orange	Maclura Pomifera	Also called " hedge apple ". Produces bright, lime-green, wrinkled, orange-sized fruit which make interesting table arrangements. Decay-resistant wood. Very hardy and grows in a wide range of soils.	b.r.	1 yr.sdlg.	\$1.75
			1 gal.	3 yr.sdlg.	\$4.00
Black Gum	Nyssa Sylvatica	Rare, Carolinian, endangered. A unique tree of swamp edges and more acidic soils. Has beautiful, waxy leaves which turn a bright reddish-purple in the fall.	potted	1 yr.sdlg.	\$2.50
Cucumber Tree	Magnolia Acuminata	Native, Carolinian. Very rare. Has shiny, thick leaves. Fruit resembles a cucumber when green. Also called cucumber magnolia. Grows best in a moist, sandy loam.	potted	1 yr.sdlg.	\$2.50
Umbrella Magnolia	Magnolia Tripetala	Carolinian. An extremely rare tree in Canada. Its range is actually in the carolinian zone and into the deep south. A small magnolia with impressive blooms and very large leaves.	b.r.	1 yr.sdlg.	\$2.50
Purple Yulan Magnolia	Magnolia Denundata	A very rare magnolia native to the Yulan province of China. Has blooms that resemble the Saucer magnolia, but with a more prominent purple "eye"	potted	1 yr.sdlg.	\$2.50
Star Magnolia	Magnolia Stallata	A relatively fast-growing,upright, oval shape with masses of star-shaped flowers in May, followed by green foliage, turning yellow in October.	b.r.	1 yr. sdlg.	\$2.50
**Honey Locust	Gledisia Triacanthos	Native, Carolinian. A versatile tree which grows in a variety of soils. Provides a dappled shade. Produces large dark, rippled pods.	potted	1 yr. sdlg.	\$2.00
American Sycamore	Platanus Occidentalis	Native, Carolinian. Has large leaves and mottled bark and can grow to be huge trees with large trunk diameters. It is not reproducing well in the wild.	potted	1 yr.sdlg.	\$2.00
Arizona Sycamore	Platanus Arizona	Suprisingly hardy in this zone! Has the same coloration as an American Sycamore, but is more pronounced. A great shade tree. Large leaves but are pointier.	b.r.	1 yr.sdlg.	\$2.00
			potted	1 yr.sdlg.	\$2.00
London Plane Tree	Platanus X Acerfolia	A large tree with handsome exfoliating bark. Great for large areas. Has large leaves and a great yellow colour.	b.r.	1 yr.sdlg.	\$2.00
**Eastern Redbud	Cercis Canadensis	Native, Carolinian. Very rare,but beautiful small tree noted for its profusion of purplish-pink blooms which appear before leaves do in April / May. Will grow in sun or shade in a variety of soils.	potted	1 yr.sdlg.	\$2.00
Slippery Elm	Ulmus Fulva	Also called the red elm.Less susceptible to the Dutch Elm Disease. A medium-sized tree growing on moist uplands. Has a great deal of medicinal uses.	b.r.	1 yr.sdlg.	\$2.00
**Northern Catalpa	Catalpa Speciosa	Native. A large hardwood with heart-shaped leaves. Noted for its unique, long pods, appearing in mid-summer.	potted	1yr.sdlg.	\$2.00
			b.r.	1 yr.sdlg.	\$2.00
			1 gal.	2 yr.sdlg.	\$4.00
**Southern Catalpa	Catalpa Bignoides	Carolinian. Tolerant of a wide variety of soils. Truly a southern species but surprisingly hardy. Grows peculiar 25 cm long pods.	potted	1 yr.sdlg.	\$2.00
			b.r.	1 yr.sdlg.	\$2.00
Chinese Catalpa	Catalpa Chinensis	A smaller, slower-growing catalpa. Has masses of white flowers.	potted	1 yr.sdlg.	\$2.00

<u>Common Name</u>	<u>Latin Name</u>	<u>Description</u>	<u>Format</u>	<u>Size</u>	<u>Price</u>
Redleaf Rose	Rosa Rubrifolia	Presenta a fantastic contrast in any landscape. Known for its coppery to purplish-red foliage. Has red fruit and pink flowers. Very hardy and disease -resistant. Low maintenance	1 gal.	2 yr.sdlg.	\$5.00
Carolina Rose	Rosa Carolina	Native, Carolinian. Will grow in poorer soils. Excellent habitat and food for a variety of animals. Beautiful summer blooms and showy red berries in winter.	potted	1 yr. sdlg.	\$2.00
Virginia Rose	Rosa Virginiana	Native, Carolinian. Will grow in poor soils. Excellent habitat for a variety of animals. Beautiful pink flowers, followed by big clumps of small red berries in winter.	potted	1 yr.sdlg.	\$2.00
Rose of Sharon	Hibiscus Syriacus	A shrub which blooms late in the year and comes in a variety of colors such as pink, mauve, red, double and white.	potted	1 yr.sdlg.	\$2.00
Disco Belle Hibiscus	Hibiscus "Disco Belle"	A shrub which can also be treated as a perennial, depending on the coldness of winter. Noted for its impressive 10-15 cm. white blooms in late summer, early fall when other plants are done blooming. Cut back to ground level each off-season.	1 gal. 1 gal.	2 yr.sdlg. 2 yr.sdlg.	\$4.00 \$5.00
Southern Belle Hibiscus	Hibiscus "Southern Belle"	A large 100 cm. tall plant with large pink or purple blooms. Also called Rose mallow.	potted 1 gal.	1 yr.sdlg. 2 yr.sdlg.	\$2.50 \$5.00
Alpine Currant	Ribes Alpinum	A light-green serrated leaf forming a quick, thick hedge. Ideal in full sun or part shade. Tolerates shearing and a wide variety of soils.	potted rooted	1 yr.sdlg. cutting	\$2.50 \$1.00
Bayberry	Myrica Pennsylvanica	Native. Plant several together to produce masses of waxy,blue-gray aromatic fruit that hold on through the winter. Grows well on poor, sandy soil and has grey-green foliage.Attracts birds.	potted 1 gal. potted	1 yr.sdlg. potted 2 yr.sdlg.	\$1.50 \$4.00 \$2.50
Hardy Rubber	Eucommia Ulmoides	Very rare. A medium-sized tree native to China. Extremely urban-tough. Has total pest and disease resistance. Only hardy rubber tree in world. Has a 2000 year history of medicinal uses.	potted	1 yr.sdlg.	\$2.50
Japanese Wingnut	Pterocarya Rhoifolia	Very rare. A relative of the hickory and the walnut.A native of China and Japan.Small nuts are contained in wings. A relatively fast-growing tree which has compound leaves.	potted	1 yr. sdlg.	\$2.50
Golden RainTree	Koelventeria Paniculata	Very rare.A hardy tree noted for its large clusters in late August, when most others have stopped blooming.Flowers turn into bluish-pink seed pods like a rose lantern.Full to part sun.Specimen tree.	potted	1 yr.sdlg.	\$2.50
